LuraDocument Capture Crack With Registration Code Download PC/Windows

[Download](#)

LuraDocument Capture Crack + Registration Code Download

LuraDocument Capture Torrent Download is a TWAIN-compatible scanning and compression tool for LuraDocument files (LDF and LDF+). In order to perform the scanning, LuraDocument Capture Full Crack takes advantage of the optional SIA/LuraDocument ActiveX Control in your web browser. You can use the interface of the ActiveX Control to control the scanning. There are two different scanning modes available: Scan mode In this mode, a sequence of documents can be scanned and stored in a single file. The files can be displayed in a web browser or sent to the printer. Multi-Page mode In this mode, a sequence of documents can be scanned and stored in a single file. Only the first page of each document is scanned and saved. Subsequent pages of the document can be displayed as thumbnails in the web browser. The Multi-Page mode is mainly used for preview purposes. As a stand-alone, unaided document scanner, LuraDocument Capture is also useful for professionals who often need to perform several scans per job. LuraDocument Capture is a stand-alone, shell-executed program to scan and compress multi-paged color documents. With the LuraDocument compression technology, you will facilitate the storage of scanned color documents at excellent visual quality and with minimal file size. There is only one LuraDocument Capture handling both the LuraDocument LDF and the LuraDocument JPM format. Here are some key features of "LuraDocument Capture": ⬜ Control of the scanning process through a TWAIN interface ⬜ Compression and storage of scanned documents ⬜ Display and processing of scanned and saved documents, respectively ⬜ Conversion of BMP, TIFF, or JPEG files to the more efficient LuraDocument LDF or LuraDocument JPM format ⬜ Choice between several document-specific scanning and compression profiles. ⬜ Web-capability through the free LuraDocument Browser PlugIn / LuraDocument ActiveX Control. This PlugIn allows display of the compressed documents in every available standard browser. ⬜ Storage of multi-paged documents in a single file (Multi-Page mode) ⬜ Display of preview images (thumbnails) Requirements: ⬜ Pentium processor ⬜ 64 MB RAM (128 MB recommended) ⬜ Windows 98 / NT / 2000 / XP ⬜ 20 MB of free harddisk space

LuraDocument Capture Crack+ Incl Product Key Download [Mac/Win] [Latest]

- Choose an appropriate scanning profile to optimize the use of the scanner - Compress files for storage or transfer - Process multi-page documents into a single file - Print thumbnails for preview images - Convert BMP, TIFF and JPEG images to LDF Requirements: - Pentium processor - 64 MB RAM (128 MB recommended) - Windows 98/NT/2000/XP - 20 MB of free harddisk space - TWAIN-compatible scanner - Internet Explorer 5.5 and above - LuraDocument Browser PlugIn or LuraDocument ActiveX Control Limitations: - 30 days trial - works with JPEG images only - supports JPEG files from 7MB up to 22MB Features: - Automatic or manual document setup - Automatic or manual search of documents - Automatic or manual processing of documents - Supports batch processing - Choice of TWAIN-compatible scanner profile - File format (LDF) specific compression

profile - Supports JPEG compression - Supports JPEG 2000 compression - Crop support for rotated and/or mirrored documents - Thumbnail support for the preview images - Cross-platform support for Internet Explorer 5.5 and above - Display of preview images (thumbnails) - Colorimetric calibration - Save preview image as JPEG - Automatic or manual conversion of BMP, TIFF and JPEG files to the more efficient LDF or LuraDocument JPM format - Multi-page documents can be saved as a single LuraDocument file - TWAIN-compatible scanner profile support for the following products: - Canon iRIS, Canon IXUS, Epson Perfection V500/SZ, Epson RX800, Epson RX100, Epson RX10/20, Epson RX350/350FD, Epson RX470/550FD, Epson RX690, Epson RX680, Epson RX610, Epson RX70, Epson RX100/1100, Epson RX700/RX1100/RX1300, Epson RX990, Epson RX-5000F, HP Photosmart R500, HP Photosmart C5160, Hp Photosmart C6510, Hp Photosmart C3620, Hp Photosmart C5580, HP Photosmart C6010, HP Photosmart C8010, HP Photosmart C8170, HP Photosmart C8410, HP Photosmart C8610, HP Photos 2edc1e01e8

LuraDocument Capture Crack +

• Scan documents, compress them and store them on your computer. • After you have saved them, they can be displayed, opened, printed. • You can convert your documents to the more efficient LuraDocument LDF and LuraDocument JPM file format. • Compress multi-page documents into a single file. • LuraDocument Capture runs under Windows 98, Windows 2000 and Windows XP. • LuraDocument Capture handles TWAIN-compliant scanners. • LuraDocument Capture can read documents and process them in one run. • LuraDocument Capture can compress both multi-page and single-page documents. • LuraDocument Capture can split up multi-page documents to several LuraDocument Capture files. • LuraDocument Capture can compress documents into one of the LuraDocument LDF or LuraDocument JPM file format. • LuraDocument Capture can convert between the BMP, TIFF, and JPEG file formats. • LuraDocument Capture can display thumbnails of all pages. • LuraDocument Capture can process thumbnails as LuraDocument Capture files. • LuraDocument Capture can create and edit LuraDocument Capture profiles. • LuraDocument Capture can display LuraDocument Capture profiles, both in the profile editor window, and in the browser window, through the free PlugIn / ActiveX Control of the PlugIn / LuraDocument ActiveX Control, respectively. • LuraDocument Capture can create LuraDocument Capture profiles and LuraDocument Capture files, directly from your scanner. • LuraDocument Capture allows you to change the resolution of a scan on the fly. • LuraDocument Capture allows you to change the setting for the type of compression, the compression level and the compression filter. • LuraDocument Capture allows you to choose the compression and the quality level. • LuraDocument Capture can set the compression and the quality level for each page. • LuraDocument Capture allows you to copy LuraDocument Capture files directly from your scanner to your computer. • LuraDocument Capture can display a list of all files of a selected profile. • LuraDocument Capture can detect changes of your computer and will adapt accordingly. • LuraDocument Capture can store documents on the local disk of the computer. • LuraDocument Capture allows you to perform batch processing of the documents of one or several profiles. • LuraDocument Capture allows you to export documents to the
